Looking for **trusted healthcare** and **reliable service** to support your study abroad and inbound international programs?

“The level of GeoBlue’s service allows us to confidently address the healthcare needs of our study abroad and international students. All this while providing user-friendly and unique benefit management capabilities for our school administrators, students and parents.”

– GeoBlue Client

Meet GeoBlue

Our plans help students, faculty, staff and administrators identify, access and pay for quality healthcare all around the world.

GeoBlue offers trusted health insurance coverage and technology-powered services that help world travelers stay safe and healthy throughout their journeys.

With over 20 years of experience, our success in understanding and serving the unique needs of our customers is what makes us a leader in the global health insurance market.

How can I **feel confident** that the international healthcare partner I choose can provide what my students and faculty need?

"We were so out of our element and so frightened and GeoBlue assured us that things were being taken care of and that they would be handled just as well if we were in the states. This was an incredible burden, and you took it off of us."

– GeoBlue Parent

Peace of Mind

Traditional health insurance covers members only in their home country. When your community embarks on international travel, you need insurance that covers them wherever they go. When students and faculty travel with GeoBlue, they're free to enjoy an international experience without worry.

GeoBlue provides plans that give members access to elite healthcare providers all around the world. For care within the U.S. they have access to the largest healthcare provider network available. Leading access to care is combined with world-class service and technology to help address health issues as soon as they arise; a combination that makes taking care of health needs convenient wherever your community are.

Will my students and their families
feel comfortable with the level
of care they receive?

“Wow! That clinic was the nicest one that I’ve ever been to. The staff was really helpful and expeditious. I showed up early for my appointment and was accommodated immediately because I am a GeoBlue customer. I’ve been sick abroad before, but I never received customer service like this.”

– GeoBlue Student

Trusted Care

While U.S. student travelers visit new global locales they'll have access to trusted and hand-picked international medical providers in 190 countries. Our healthcare providers, including physicians and dentists, speak English and are Western-trained, so you can be sure your students are comfortable with the care they receive.

International students coming into the U.S. have access to the Blue Cross Blue Shield network—the largest in the U.S. With 92% of doctors and 96% of hospitals participating this allows for maximum convenience and flexibility for those in need of healthcare services.

Who will **help my students** when they need care in a foreign country? And who will **help explain** the U.S. healthcare system to our inbound students?

"I've had marvelous experiences with GeoBlue. I've required healthcare in two countries, both with their own quirky systems, and you have handled it all with ease. Every time I have called your customer service, the advice has been expedient and expert!"

– GeoBlue Student

Exceptional Service

GeoBlue is built on a strong foundation of great customer service. From plans designed with higher education decision-makers in mind, to processes that make it easy to find care and file claims, meeting customer needs is our goal. For students outside the U.S., global services are available 24/7/365 to assist members with anything from coordinating evacuations and understanding treatment options to arranging Direct Pay for a scheduled appointment.

Our U.S.-based customer service and medical assistance teams are readily available to help international members understand and navigate the U.S. healthcare system. Our representatives cover many foreign languages, allowing us to discuss coverage and personal health topics with our international members in their native tongue.

What type of **tools are available** to help students, parents and faculty **feel more in control** of their own situations?

“When the reality hit me that my son was sick in a foreign country over 7,000 miles away in the Philippines, I felt helpless. But the fact that my son could use the mobile tools to secure care and arrange for direct payment provided even more assurance that he would be supported by a completely competent and forward thinking company!”

– GeoBlue Parent

Convenient Technology

The GeoBlue mobile app puts our concierge-level service right in the hands of our members. They can manage their health from anywhere by searching for healthcare providers, setting up Direct Pay and providing proof of coverage. They can also use our translation tools to help schedule a doctor visit or ensure they're getting the right dose of the right medication. To keep our members safe and informed while mobile, they can also view security profiles and read travel alerts within our app.

I need coverage for inbound students, outbound students, faculty and staff going on assignment!
Is there **one solution** for all my needs?

“Though we have all types of travelers, we have a single point of contact for all services at GeoBlue. That’s what makes this work – there’s never any guessing on our end, and never difficulty in figuring out how to get something accomplished.”

– GeoBlue Client

Comprehensive Solutions

GeoBlue experts will work with you to understand your current program and your future needs. We can design group plans for students, faculty and staff, and provide all of the tools you’ll need to manage your plan. We have plans for your whole institution: study abroad students, inbound international students, expats, and business travelers.

And all of our plans include these benefits:

- Unmatched benefits and services
- Elite doctors and hospitals
- Advanced technology
- Evacuation services
- Global safety intelligence
- Single point of service for administrators

GeoBlue Study Abroad

for students leaving the U.S.

Embarking on a study abroad program is an exciting venture that opens up the mind and gives students a broader, global view of the world. GeoBlue brings peace of mind to students—and parents—and lets them focus on experiencing a rich, new culture.

GeoBlue study abroad plans provide these necessary solutions:

Cashless access to trusted care

Mental health coverage

Coverage for pre-existing conditions

Emergency medical evacuation

Global safety intelligence

No deductibles

**Optional political event and natural
disaster evacuation services**

GeoBlue Inbound International

for international students coming to the U.S.

For non-U.S. students enrolled in U.S. institutions of higher learning, GeoBlue smooths the students' transition to the United States and gives them peace of mind during their visit. Our core strength is access to the Blue Cross Blue Shield network allied to exceptional service. We work with international students to ensure they stay safe and healthy while they're in the U.S.

GeoBlue inbound international plans provide these necessary solutions:

U.S. healthcare expertise

No deductibles

Emergency medical evacuation

All plans are J-1 compliant, but J-1 specific plans are also available

Optional mental health coverage

Optional sports injury coverage

Optional maternity coverage

GeoBlue Expat®

for faculty and staff leaving their home country for a long-term assignment

GeoBlue Expat combines comprehensive global benefits with a new generation of medical assistance services. This plan is designed for international faculty, staff and their families when they leave their home countries for six months or more.

GeoBlue Expat plans provide these necessary solutions:

Everyday and major medical coverage

Coverage for pre-existing conditions

Wellness coaching

Global employee assistance program

Emergency medical evacuation

Global safety intelligence

Optional political event and natural disaster evacuation services

GeoBlue Traveler®

for faculty and staff leaving their home country
for business travel or short-term assignment

GeoBlue Traveler provides group supplemental medical benefits and services for faculty and staff traveling for business and assignments outside of their home country for trips lasting up to 180 days.

GeoBlue Expat plans provide these necessary solutions:

Blanket coverage for your business travelers

Sick visits and emergency care

Emergency medical evacuation

Global safety intelligence

Optional accidental death & dismemberment coverage

Optional spouse and dependent coverage

**Optional political event and natural
disaster evacuation services**
